

Presentation Sunday, November 9, 2-4 pm
Connect with your Home Planet and Oversoul
with Greg Martins

Have you ever felt your true home might be among the stars?

In this presentation, Greg will outline the concepts of *Home Planets* and the *Oversoul*; he will provide example *Akashic Record* Readings he has done for people on this concept.

Through his talk Greg will:

- Share how he developed his ability to retrieve information from people's Akashic Records over the decades.
- Share readings he has done about people's home planets, and how they felt the information resonated with them.
- Discuss the concept of the Oversoul – the higher part of our soul that typically resides on our Home Planet.

Through Greg's presentation we will gain a sense that the concepts he shares appear to be valid. Those who resonate with this approach may want to learn about their own Home Planet and Oversoul as a way to deepen their own sense of wholeness and capability.

Bio:

Greg began working with the Akashic Records (ARs) in 1993, under the mentorship of Leah Stansell, a dear friend who has successfully accessed the ARs for decades and works with the police on missing persons cases.

He wrote the book ***Star Journey Home: Connect with your Home Planet and Oversoul*** because as he looked into these concepts in peoples' Akashic Records, he found the discoveries to be consistently real. He now shares these concepts with the world.

He retired from NASA/Goddard Space Flight Center in 2018 after 35 years as an aerospace engineer.

DETAILS

Date:

November 9

Time:

2:00 pm - 4:00 pm
